# **United Power Generation & Distribution Company Ltd.**

## **Notes to the consolidated financial statements (Un-audited)**

As at and for the period ended 31 December 2018

### **1 Reporting entity**

#### **1.1 Company profile**

United Power Generation & Distribution Company Ltd. (UPGDCL) (hereinafter referred to as "the Company"), a public limited company, was incorporated in Bangladesh on 15 January 2007 under the Companies Act (#18) 1994 under registration no. C-65291(2783)/07 with its corporate office at Gulshan Center Point, Road No. 90-91, House No. 23-26, Gulshan-2, Dhaka-1212, Bangladesh. The Company was initially registered as a private limited company, formerly known as Malancha Holdings Ltd. (MHL) and subsequently converted into a public limited company on 22 December 2010.

The Company is listed with Dhaka Stock Exchange Limited (DSE) and Chittagong Stock Exchange Limited (CSE).

#### **1.2 Nature of the business**

The principal activity of the Company is to generate electricity by gas fired power plants, at Dhaka Export Processing Zone (DEPZ) with 86 MW capacity and Chittagong Export Processing Zone (CEPZ) with 72 MW capacity and to sell electricity to the export processing industries located inside DEPZ and CEPZ with the provision of selling surplus power outside the Export Processing Zones (EPZs) after fulfilling their requirement. The Company is also supplying electricity to Dhaka PBS-1 of Bangladesh Rural Electrification Board (BREB), Bangladesh Power Development Board (BPDB), Karnaphuli Export Processing Zone (KEPZ) and other private sector companies.

#### **1.3 Power plant**

The natural gas fired power plants of Dhaka EPZ and Chittagong EPZ consist of Wärtsilä, Rolls Royce and MTU engine generators with 30 years expected useful life, which form the major part of the power generation companies.

DEPZ power plant came into commercial operation on 26th December 2008 with capacity of 41 MW at DEPZ premises. In 2013, the Company increased its capacity from 41 MW to 86 MW and installed 2 heat recovery boilers to produce 8 ton/h of steam for sale to other customers. At DEPZ, there are four gas fired engines with capacity of 8.73 MW each, five gas fired engines with capacity of 9.34 MW each and two gas fired engines with capacity of 2 MW each for generation of electricity.

CEPZ power plant came into commercial operation on 12 August 2009 with capacity of 44 MW at CEPZ premises. In 2013, the Company increased its capacity from 44 MW to 72 MW and installed 3 heat recovery boilers to produce 12 ton/h of steam for sale to other customers. At CEPZ, there are five gas fired engines with capacity of 8.73 MW each and three gas fired engines with capacity of 9.34 MW each.

United Energy Limited (UEL), a subsidiary company of UPGDCL has two gas fired power plants located at Kumargaon, Sylhet and B. Baria, Ashuganj respectively. At sylhet power plant, there are three (3) gas fired engines with capacity of 9.34 MW each i.e. total 28 MW capacity which started its commercial operation on 21 October 2013. The natural gas fired power plants at Ashuganj consist of fourteen (14) MWM gas fired engine generators with the capacity of 3.968 MW each i.e total 53 MW capacity which went into commercial operation from 22 June 2011.

United Ashuganj Energy Limited (UAEL), a subsidiary company of UEL, is a gas fired power plant with capacity of 195 MW (Net) located at B. Baria Ashuganj which started its commercial operation on 8th May 2015. The principal activity of the company is power generation and sell of power to Bangladesh Power Development Board (BPDB).

### **2 Basis of accounting**

#### **2.1 Basis of preparation**

These unaudited consolidated financial statements have been prepared in line with United Power Generation & Distribution Company Ltd.'s accounting policies in compliance with the International Financial Reporting Standards (BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations. More specifically, the consolidated financial statements of the Company have been prepared in accordance with the provisions of International Financial Reporting Standard 10 "Consolidated Financial Statements".

The unaudited consolidated financial statements have been prepared under the historical cost convention, except for the following:

- i) derivative -financial instruments, measured at fair value; and
- ii) financial instruments at fair value through profit and loss, measured at fair value.

## **2.2 Principles of consolidation:**

The accounts of the subsidiary of the Company have been fully consolidated as the Company directly controls more than 50% of the voting shares of the entity.

The Company has made following investments in its subsidiaries which have been eliminated during consolidation:

All inter-company balances between the Company and its subsidiaries are eliminated on consolidation.

## **2.3 Scope of consolidation**

The name of subsidiary company and proportion of ownership interest are as follows:

<u>Name of subsidiary</u>	<u>Date of Acquisition</u>	<u>% of ownership interest</u>
United Energy Limited	1 July 2018	99%

## **2.4 Date of authorisation**

The (Un-audited) consolidated half yearly financial statements were authorised for issue by the Board of Directors on 31 January 2019.

## **2.5 Reporting period**

The current financial period of the Company covers 1 July 2018 to 31 December 2018.

## **3 Functional and presentation currency**

These (Un-audited) consolidated financial statements have been presented in Bangladeshi Taka (Taka/Tk/BDT), which is both functional and presentation currency of the Company. All financial information presented in Taka have been rounded off to the nearest integer, unless otherwise indicated.

## **4 Use of estimates and judgements**

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may vary from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

### **4.1 Assumptions and estimation uncertainties**

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statement is included in the following notes:

Note 5 and 43A	Property, plant and equipment
Note 8 and 43B	Inventories
Note 9 and 43C	Trade and other receivables
Note 24 and 43I	Provision for taxation

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible.

### **37 Financial risk management**

The Company has exposure to the following risks from its use of financial instruments.

- A Credit risk
- B Liquidity risk
- C Market risk

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board oversees how management monitors compliance with risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to risks faced by the Company. The Board is assisted in its oversight role by the Audit Committee. Internal audit, under the purview of Audit Committee, undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

#### **A Credit risk**

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from buyers.

Management monitors the exposure to credit risk on an ongoing basis. The maximum exposure to credit risk is represented by the carrying amount of financial assets in the statement of financial position.

#### **B Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Typically, the Company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.

#### **C Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

##### **i. Currency risk**

Currency risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in foreign exchange rate. The Company is exposed to foreign currency risk relating to purchases and other transactions which are denominated in foreign currencies.

##### **ii. Interest rate risk**

Interest rate risk is the risk that arises due to changes in interest rates on borrowings and deposits.

### Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as at balance sheet date is as follows:

				Nominal Amount
31 December 2018				30 June 2018
<i>In Taka</i>	<i>Note</i>	Consolidated	Separate	Separate
<b>Fixed rate instruments</b>				
<i>Financial assets</i>				
Receivable from related party	10	55,048,426,744	4,260,592,564	4,759,627,601
<b>Variable rate instruments</b>				
<i>Financial liabilities</i>				
Long term loan	18	8,057,524,776	-	-
Payable to related party	23	43,652,875,260	7,153,503	6,989,504
		<b>106,758,826,780</b>	<b>4,260,592,564</b>	<b>4,759,627,601</b>

### 38 Operational Risk

Operational risk constitutes the ability of the Company's power projects to generate and distribute stipulated electricity to its off-takers. Technology used, fuel supply arrangement, operational and maintenance (O&M) arrangement, political or force majeure in the form of natural disaster like floods, cyclone, tsunami and earthquake may hamper normal performance of power generation. The timely and appropriate maintenance of the distribution networks undertaken by BEPZA reduces the chance of major disruptions. However, severe natural calamities which are unpredictable and unforeseen have the potential to disrupt normal operations of the Company. Management believes that prudent rehabilitation schemes and quality maintenance will lessen the damages caused by such natural disasters. Most importantly, all the above risks are covered under the insurance agreement with Pragati Insurance company Limited to compensate for all the potential damages caused in such situations.

### 39 Comparatives and rearrangement

Previous period figures have been rearranged, wherever considered necessary to conform to the current period's presentation.

### 40 Events after the reporting period

Events after the reporting period that provide additional information about the Company's position at the reporting date or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes when material.

### 41 Going concern

The Company has adequate resources to continue in operation for the foreseeable future. For this reason, the management continues to adopt going concern basis in preparing the financial statements. The current resources of the Company provide sufficient fund to meet the present requirements of its existing business.

## **42 Basis of measurement**

The Un-audited consolidated financial statements have been prepared on historical cost basis except inventories which is measured at lower of cost and net realisable value on each reporting date.

## **43 Significant accounting policies**

The Company has consistently applied the following accounting policies to all periods presented in these financial statements, unless stated otherwise.

Set out below is an index of the significant accounting policies, the details of which are available on the current and following pages:

- A Property, plant and equipment
- B Inventories
- C Financial instruments
- D Impairment
- E Revenue
- F Provisions
- G Contingencies
- H Foreign currency
- I Income tax
- J Employee benefits
- K Statement of cash flows
- L Finance income
- M Share capital
- N Earnings per share
- O Dividends

### **A Property, plant and equipment**

#### **Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. The cost of an item of property, plant and equipment comprises its purchase price, import duties and non-refundable taxes, after deducting trade discount and rebates, and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the intended manner.

#### **Subsequent costs**

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the statement of comprehensive income as incurred.

#### **Depreciation**

- i) No depreciation is charged on land and capital work in progress.
- ii) Property, plant and equipment are stated at cost less accumulated depreciation. All property, plant and equipment have been depreciated on straight line method.
- iii) In respect of addition to fixed assets, full depreciation is charged in the month of addition irrespective of date of purchase in that month and no depreciation is charged in the month of disposal/retirement. Residual value is estimated to be zero for all assets.

The rates of depreciation vary according to the estimated useful lives of the items of all property, plant and equipment.

Considering the estimated useful life of the assets, the rates of depreciation are as follows:

	%
Plant and machinery	3.33%
Gas line	2%
Office equipment	15%
Furniture and fixture	10%
Motor vehicle	10%

#### **Retirements and disposals**

An asset is derecognised on disposal or when no future economic benefits are expected from its use and subsequent disposal. Gain or loss arising from the retirement or disposal of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised as gain or loss from disposal of asset in the statement of profit or loss and other comprehensive income.

### **B Inventories**

Inventories consisting mainly of spare parts, lube oil and chemicals are valued at lower of cost and net realisable value. Net realisable value is based on estimated selling price in the ordinary course of business less any further costs expected to be incurred to make the sale. Costs of inventories include expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. Cost of inventories is determined by using weighted average cost method.

When inventories are consumed, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

### **C Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### **(i) Financial assets**

The Company initially recognises receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the date on which the Company becomes a party to the contractual provisions of the transaction.

The Company derecognises a financial asset when the contractual rights or probabilities of receiving the cash flow from the asset expire, or it transfers the right to receive the contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifies non-derivative financial assets into the following categories: financial assets at fair value through profit or loss, held-to-maturity financial assets, loans and receivables and available-for-sale financial assets.

#### **Loans and receivables**

Loans and receivables are financial assets with fixed and determinable payments that are not quoted in the active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

**Cash and cash equivalent**

Cash and cash equivalents include cash in hand and cash at bank which are held and available for use by the Company without any restriction. For the purposes of the statement of cash flows, cash and cash equivalents comprise cash in hand, deposits held at bank and financial institutions and short-term highly liquid investments with maturities of three months or less from the date of acquisition.

**Trade and other receivables**

Trade receivables represent the amounts due from customers for rendering services. Trade receivables are recognised initially at cost which is the fair value of the consideration given for them. Provision for debts doubtful of recovery, if any, are made at the discretion of management.

Other receivables include accrued interest on fixed deposits and dividend income which are recognised at the amount that would be received at the contractual interest rate and declared dividend rate.

**Available-for-sale financial assets**

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified in any of the above categories of financial assets. Available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on available-for-sale debt instruments, are recognised in other comprehensive income and presented in the fair value reserve in equity. When an investment is derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

**(ii) Financial liabilities**

The Company initially recognises financial liabilities on the transaction date at which the Company becomes a party to the contractual provisions of the liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method. Financial liabilities include trade and other payables, borrowings and inter-company payable.

**Trade and other payables**

The Company recognises a financial liability when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

**Accrued expenses**

Accrued expenses represent various operating expenses that are due at the reporting date which are initially measured at fair value.

**D Impairment****Financial assets**

Financial assets are assessed at each reporting date to determine whether there is any objective evidence of impairment. Financial assets are impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event has a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

**Non financial assets**

An asset is impaired when its carrying amount exceeds its recoverable amount. The Company assesses yearly whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Carrying amount of the asset is reduced to its recoverable amount by recognising an impairment loss, if and only the recoverable amount of the asset is less than its carrying amount. Impairment loss is recognised immediately in the statement of comprehensive income.

## **E Revenue**

Revenue is recognised in the statement of comprehensive income upon supply of electricity and steam, quantum of which is determined by survey of meter reading. As per *BAS-18 Revenue* is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue measured at the fair value of the consideration received or receivable.

Revenue is recognised, excluding Value Added Tax and other Government levies, on the basis of net units of energy generated and transmitted to the authorised customer's transmission systems and invoiced on a monthly basis upon transmission to the customers. Revenues are valued using rates in effect when services are provided to customers.

## **F Provisions**

A provision is recognised in the statement of financial position when the company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## **G Contingencies**

Contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

### **(i) Contingent liability**

Contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liability should not be recognised in the financial statements, but may require disclosure. A provision should be recognised in the period in which the recognition criteria of provision have been met.

### **(ii) Contingent asset**

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset must not be recognised. Only when the realisation of the related economic benefits is virtually certain should recognition take place provided that it can be measured reliably because, at that point, the asset is no longer contingent.

## **H Foreign currency**

Foreign currency transactions are translated into BDT/Taka at the exchange rates prevailing on the date of transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate prevailing at the reporting date.

Foreign currency denominated non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates prevailing at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

## **I Income tax**

Income tax expense comprises current and deferred tax. Income tax expense is recognised in profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

**(i) Current tax**

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. No provision is required for income tax on the Company's profits as the Company has received exemption from all such taxes from the Government of Bangladesh under the private sector power generation policy for a period of 15 years from start of its commercial operation, vide SRO ref: 188-Law/Income Tax/2009-Income Tax ordinance (#36) 1984 dated 01 July 2009. Such exemption for Dhaka EPZ power plant will expire in 2023 and for Chittagong EPZ power plant in 2024.

**(ii) Deferred tax**

As there is considerable uncertainty with regard to the taxation of the Company after the expiry of the tax exemption period, management feels it is not possible to make a reasonable estimate of deferred tax assets/liabilities at this stage.

**J Employee benefits**

**Workers profit participation fund (WPPF)**

The government of Bangladesh has made an amendment to the Labour Law 2006 in July 2013. As per amended section-232 (chha) of the Act, any undertaking carrying on business to earn profit is liable to make provision for WPPF at 5% of the net profit and it also needs to be distributed within 9 months of the statement of financial position date. Operation and maintenance (O&M) activities of the Company are managed by 184 employees of United Engineering and Power Services Limited under an O&M contract. Therefore, the provision of WPPF is not applicable for the Company.

**K Statement of cash flows**

Statement of cash flows (Un-audited) has been prepared in accordance with the *BAS 7: Statement of cash flows* under the direct method.

**L Finance income**

Finance income comprises interest on financial deposits with banks and loans made to related parties. Finance income is recognised on an accrual basis and shown under statement of profit or loss and other comprehensive income.

**M Share capital**

Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction are accounted for in accordance with BAS 12.

**N Earnings per share**

The Company represents earnings per share (EPS) data for its ordinary shares. EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

**O Dividends**

Final dividend distributions to the Company's shareholders are recognised as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders at the Annual General Meeting, while interim dividend distributions are recognised in the period in which the dividends are declared and paid.
